ABOUT

I am a 12th-grade Computer Science student with a strong passion for technology and a solid foundation in programming, critical thinking, and problem-solving. I am proficient in **JavaScript, React, Next.js, Node.js, MongoDB, HTML, CSS, Git, and GitHub**, and I enjoy building practical projects that demonstrate my skills. Eager to learn and grow, I actively seek new challenges and opportunities to apply my knowledge and contribute to meaningful technology solutions.

SKILLS

React

Node.js

Next.js

MongoDB

JavaScript

Tailwind CSS

EDUCATION

Gorkha Secondary School-(12th grade)

2081–2082

Computer Science

RECENT PROJECTS

ChatRex – Real-Time Chat Application

Built using **Next.js, shadcn/ui**, and **Tailwind CSS** for a modern, responsive interface, with **Clerk** handling secure user authentication and session management. The backend uses **Convex** to manage real-time data synchronization, enabling instant messaging across multiple chat rooms. Key features include secure login, verified user badges, one-to-one and group chats, live updates, and a clean, user-friendly UI designed for smooth interactions.

Luxera – E-Commerce Platform

Luxera is a premium e-commerce platform for printed cloth products, built with **Next.js, Tailwind CSS**, and **shadcn/ui**. **Clerk** handles secure user authentication, while **Convex** manages real-time backend operations for orders, products, and user data. It features a full **admin panel** for product management, order tracking, and user management, and provides a seamless shopping experience with a clean, responsive, and user-friendly interface.
